- Support One Another
- Create Fearlessly

# BEYOND BOUNDARIES

## GETTING ALONG GETS RESULTS

**Beyond Boundaries** creates customized, interactive, team-building experiences that can invigorate your group's relationships, enhance communication and support, and develop trust. Insights practiced during team interaction transfer easily back to your workplace.

Beyond Boundaries uses an experiential model based on Play, Process, and Performance.

- **PLAY** Plato said, "You can discover more about a person in an hour of play than in a year of conversation." Beyond Boundaries uses interactive workshops to play, whether in the form of an outdoor challenge course or through an experiential exercise in a conference room. This gives teams an opportunity to create and actually practice skills that work.
- **PROCESS** Interactive group challenges are used as metaphors for workplace situations. Discussions led by our facilitators increase awareness of group dynamics. This new knowledge can be transformed into best practices in your workplace.
- **PERFORMANCE** With new insights and awareness, your group can improve the chemistry, efficiency and performance of your workplace.

Beyond Boundaries offers one hour, half-day, full-day and customized programming adapted to meet your needs. Rates vary depending on your group's scope, size and goals:

- On or Off-site
- Workshops or Retreats
- On the Challenge Course

### About the Challenge Course

Located at 2400 Valley Drive in Valparaiso, the Challenge Course is an outdoor low ropes course that provides endless team building opportunities. The course is constructed mostly of beams, rope, and cable initiatives. Many areas of the course are covered with rubber mulch providing a protective and soft surface. Beyond Boundaries' staff facilitates each challenge, monitoring safety while adapting to your groups needs and abilities. The focus is on enhancing teamwork, not dramatic physical feats.
